Education

 **Clemson University** **Clemson, SC**
2015 - 2019

BACHELORS OF SCIENCE IN COMPUTER SCIENCE

- Major Focus: Distributed and Cloud Computing
- Courses: Software Engineering | Functional Programming | Data Structures and Algorithms | Database Systems | Operating Systems | Networking | Computer Architecture

Professional Experience

 **True Homes** **Charlotte, NC**
2023 - Present

PLATFORM ENGINEER 2

- Designed a strangler-fig migration pattern to upgrade a large web forms project to modern Blazor
- Facilitated a migration from TFS to Git, including the creation of a Git tool to manage multiple repositories across the company
- Introduced a new document builder tool, eliminating the need for manual document creation
- Reduced the page load time for a high-traffic tool by 86%, saving relevant employees 50+ hours per year
- Optimized the pdf build and aggregation process, reducing generation times by 58%

.NET Core/Framework Blazor MS SQL Azure DevOps CI/CD

 **Driven Deliveries** **Los Angeles, CA**
2021 - 2023

SOFTWARE ENGINEER/ SENIOR SOFTWARE ENGINEER

- Implemented a driver tracking system monitoring 100+ drivers daily in Southern, Central, and Northern California
- Created a cloud based media library to share multimedia content across the company
- Led development for a dynamic routing system that leverages vehicle routing algorithms with safe and transactional overrides

Typescript NodeJS React React Native MongoDB Github Actions AWS CI/CD

 **Fidelity Investments** **Raleigh, NC**
2020 - 2021

JUNIOR SOFTWARE ENGINEER

- LEAP program graduate: a 6-month full-stack development program for high-potential CS graduates
- Maintained and developed sensitive customer investment APIs for high value executives

.NET Core/Framework Java Angular Oracle SQL Azure DevOps CI/CD

Projects & Associations

 **Brother 2 Brother**
CO-FOUNDER

- Clemson University's chapter of the Student African-American Brotherhood (SAAB)
- SAAB is an inclusive organization dedicated to ensuring men of color have the support needed to excel academically, socially, and professionally
- Board member responsible for planning and executing events, managing finances, and organizing campus outreach

 **Debug and Deploy Tool**
CREATOR

- Tool that allows you to build, deploy, and debug applications for the PS Vita via FTP with one command
- Enables basic commands to be sent wirelessly via Unix/Windows CLI, VSCode, or MacBook Touch Bar (ex. screen on, restart, copy files)

Typescript Lua Sqlite

Skills
